PROFESSIONAL SUMMARY

I'm Muhammad Sohail, a Software Engineering student with a strong interest in web development, graphic design, editing and AI. I love turning ideas into real projects and continuously learning new technologies.

EDUCATION

Bachelor of Science in Software Engineering (BS SE) — **In Progress (Expected 2026)**

Peshawar, Pakistan • Key Focus: Software Architecture, Algorithms, Web Technologies, Database Systems

TRAINING & CERTIFICATIONS

Saylani Mass IT Training (SMIT) — Web Development — **Certified Graduate**

Comprehensive training covering frontend architecture, HTML5, CSS3, JavaScript ES6+, React.js components, responsive layout techniques, and modern version control workflows.

TECHNICAL SKILLS & PROFICIENCIES

- **Frontend Development:** HTML5 (95%), CSS3 (90%), JavaScript ES6+ (88%), React 19 (85%), Tailwind CSS (92%), Responsive Web Design, Component Architecture
- **Backend & Databases:** Node.js (80%), Express.js REST APIs, PostgreSQL (75%), JSON Database Persistence, JWT Authentication, API Security
- **UI/UX & Design:** Figma Prototyping (85%), Brand Identity, Monograms & Logo Design, Social Media Assets, Video Editing
- **Tools & Automation:** Git & GitHub (82%), Linux Shell, Vite, npm, Modern AI Tools & Prompt Engineering Workflows

FEATURED PROJECTS

Portfolio Website & Admin CMS — **React 19 • TypeScript • Tailwind CSS • Express • Node.js**

Full-stack responsive developer portfolio featuring dark neon aesthetic, authenticated admin management console, real-time inquiry processing, and customizable project showcase.

SkyCast Weather Application — **React • OpenWeather API • Tailwind CSS • Responsive UI**

Real-time atmospheric tracking application with live weather forecasts, location search, temperature analytics, and adaptive weather visualization.

TaskFlow Modern Todo App — **HTML5 • JavaScript ES6+ • CSS3 • LocalStorage**

Productivity management tool featuring category filtering, state persistence, clean task completion workflows, and intuitive modern interface.
